Summary

Computer Science Engineering undergraduate with strong foundations in **Data Structures, Object-Oriented Programming, and Software Development**. Experienced in designing and building scalable applications using **Python, Java, and JavaScript**. Skilled in **backend development, API design, debugging, and full-stack web development**. Passionate about solving complex problems and building reliable software systems.

Education

Bachelor of Technology (B.Tech) – Computer Science Engineering	2023 – 2027
Shri Ramdeobaba College of Engineering and Management (RCOEM), Nagpur	CGPA: 9.48 / 10
Higher Secondary Certificate (Class XII)	2022 – 2023
Heritage International Junior College, Nanded	Grade: 82.67%
Secondary School Certificate (Class X)	2020 – 2021
Oxford The Global School, Nanded	Grade: 90%

Projects

Agentic Honey-Pot for Scam Detection and Intelligence Extraction *Python, Flask, Machine Learning*

- Developed an **automated system** to detect scam conversations and safely interact with malicious actors using **AI-generated responses**.
- Built **monitoring pipelines** to analyze suspicious messages and identify potential scam indicators.
- Extracted **structured intelligence** including links, phone numbers, and account details for analysis.
- Implemented **secure backend APIs** with authentication and monitoring endpoints.

Smart Expense Tracker *Python, Streamlit, SQLite, Pandas, Plotly*

- Developed a **data-driven web application** for managing and analyzing personal expenses.
- Implemented **category-wise expense tracking** with interactive dashboards.
- Integrated **financial visualizations** to identify monthly spending patterns.
- Generated **automated insights** to improve budgeting awareness.

Community Engagement Platform – Anandwan Awareness *React.js, Node.js, Express.js*

- Built an **interactive web platform** to raise awareness about leprosy rehabilitation initiatives.
- Designed a **responsive user interface** to educate users and encourage participation.
- Implemented **backend APIs** to manage dynamic content and engagement features.
- Applied **full-stack development practices** including version control and debugging.

Achievements

- Scored **98.98 percentile in MHT-CET 2023** and **96.58 percentile in JEE Main 2023**.
- **Qualified and cleared JEE Advanced 2023**, one of India's most competitive engineering entrance examinations.
- Achieved **2★ rating on CodeChef** with a peak rating of **1411** in competitive programming contests.
- Solved **200+ Data Structures and Algorithms problems** on [LeetCode](#).
- Participated in **national-level hackathons and technical competitions**.
- Maintaining strong academic performance with **CGPA 9.48 / 10**.

Skills

Programming Languages: Python, Java, C++ (Basics), JavaScript, SQL

Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks, Software Development Lifecycle (SDLC)

Artificial Intelligence & Machine Learning: Artificial Intelligence, Machine Learning

Web Development: HTML5, CSS3, React.js, Node.js, Express.js, REST API Development

Databases: PostgreSQL, MongoDB, SQLite

Tools: Git, GitHub, Docker (Basics), Postman

Testing: Pytest, Unit Testing, Debugging

Soft Skills: Problem Solving • Team Collaboration • Communication • Leadership • Innovation • Rapid Learning Ability
