Summary

Computer Science Engineering undergraduate with strong foundations in **Data Structures, Object-Oriented Programming, and Software Development**. Experienced in designing and building scalable applications using **Python, Java, and JavaScript**. Skilled in backend development, API design, debugging, and full-stack web development. Passionate about solving complex problems, writing clean and maintainable code, and building reliable software systems.

Education

Bachelor of Technology (B.Tech) – Computer Science Engineering Shri Ramdeobaba College of Engineering and Management (RCOEM), Nagpur	2023 – 2027 CGPA: 9.48 / 10
Higher Secondary Certificate (Class XII) Heritage International Junior College, Nanded	2022 – 2023 Grade: 82.67%
Secondary School Certificate (Class X) Oxford The Global School, Nanded	2020 – 2021 Grade: 90%

Projects

Agentic Honey-Pot for Scam Detection and Intelligence Extraction *Python, Flask, Machine Learning*

- Developed an intelligent system to detect scam conversations and safely interact with malicious actors using automated AI responses.
- Built monitoring pipelines to analyze suspicious messages and identify potential scam indicators.
- Extracted structured intelligence such as links, phone numbers, and account details for reporting and analysis.
- Implemented secure backend APIs with authentication and monitoring endpoints for deployment readiness.

Smart Expense Tracker *Python, Streamlit, SQLite, Pandas, Plotly*

- Developed a data-driven web application for managing and analyzing personal expenses.
- Implemented category-wise expense tracking with interactive visual dashboards.
- Integrated dynamic financial visualizations to identify monthly spending patterns.
- Generated automated insights to improve budgeting and financial awareness.

Community Engagement Platform – Anandwan Awareness *React.js, Node.js, Express.js*

- Built an interactive web platform to raise awareness about leprosy rehabilitation initiatives.
- Designed a responsive user interface to educate users and encourage community participation.
- Implemented backend APIs to manage dynamic content and engagement features.
- Applied full-stack development practices including version control, debugging, and deployment.

Achievements

- Scored **98.98 percentile** in MHT-CET and **96.58 percentile** in JEE Main.
- Qualified **JEE Advanced 2023**.
- Solved **200+ Data Structures and Algorithms** problems on [LeetCode](#).
- Maintaining strong academic performance with **CGPA 9.48 / 10**.
- Participated in national-level hackathons and technical competitions.

Skills

Technical Skills

Programming Languages: Python, Java, C++, JavaScript, SQL

Computer Science Fundamentals: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks

Web Development: HTML5, CSS3, React.js, Node.js, Express.js, REST API Development

AI / Machine Learning: Machine Learning, Natural Language Processing, Scikit-learn

Databases: PostgreSQL, MongoDB, SQLite

Tools: Git, GitHub, Docker (Basics), Postman

Testing: Pytest, Unit Testing, Debugging

Soft Skills

Problem Solving • Team Collaboration • Communication • Leadership • Innovation • Rapid Learning Ability
